Counting crabs! How many crabs can you find?

\_\_\_ Porcelain Crabs

\_\_\_ Decorator Crabs

\_\_\_ Red Rock Crabs

\_\_\_ Hermit Crabs

\_\_\_ Kelp Crabs

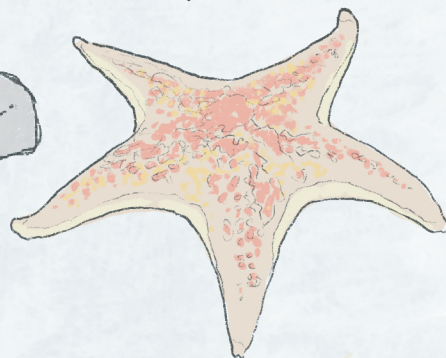

\_\_\_ Dungeness Crabs

Here are some common places to find crabs in the aquarium. Can you draw in the crabs you find?

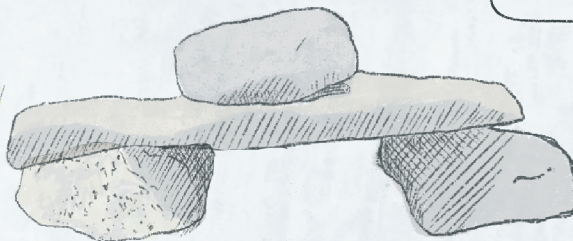

Climbing on eelgrass

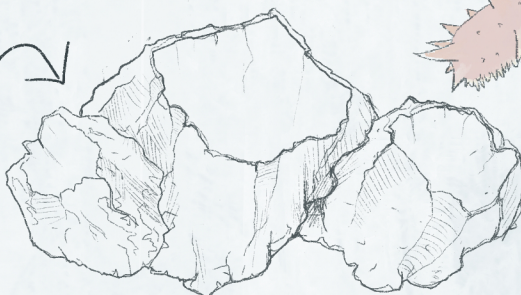

Lounging on a sea star

Hiding under rocks

Hiding in empty barnacle shells

Riding a sea cucumber

Strolling on the sand

Rock climbing

Buried in the sand

This decorator crab needs your help! Can you add some anemones, sponges, and seaweed to its legs and carapace?

These decorations help the crab hide from predators!

A crab's hard exoskeleton does not grow with the crab. So, how does a crab grow bigger? Circle your answer:

A. Goes to the mall

B. Goes through a process called, molting
